

ACTIVITY 3-6

Formatting a Table

Data Files:

contactus.html

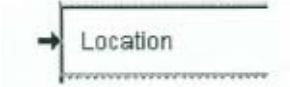

Before You Begin:

Scroll to the top of the page.

Scenario:

Since the table of contents on a page appears to be similar, it makes it difficult reading. Therefore, you decide to enhance the appearance of the table so that the content in the table can be easily distinguished.

What you do	How you do it
1. Create a CSS rule for the table	<ol style="list-style-type: none">At the bottom of the CSS STYLES panel header, click the New CSS Rule button.In the New CSS Rule dialog box, in the Selector Type section, from the drop-down list, select Class (can apply to any HTML element).In the Selector Name section, in the first text box, click and type .theadIn the Rule Definition section, in the drop-down list, verify that (This document only) is selected and click OK.
2. Specify CSS properties for the thead class style.	<ol style="list-style-type: none">In the CSS Rule definition for .thead dialog box, from the Font-size drop-down list, select 14.From the Font-weight drop-down list, select bolder.In the Category list box, select Background.In the Background-color text box, click and type #B6D9EFIn the Category list box, select Block.From the Text-align drop-down list, select center.In the Category list box, select Box.In the Height text box, click and type 20Click OK to add the CSS rule.
