

ACTIVITY 5-5

Creating Image Link Rollovers

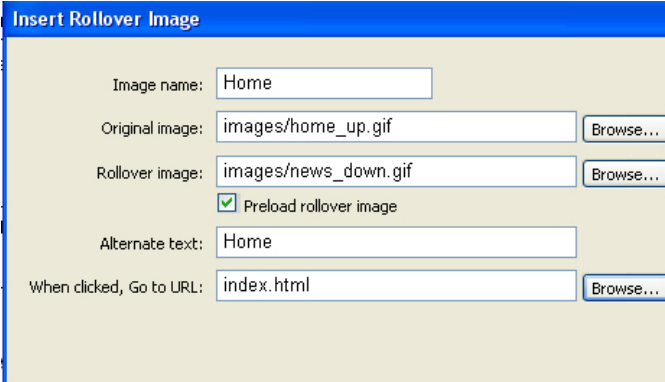

Data Files:

index.html

Scenario:

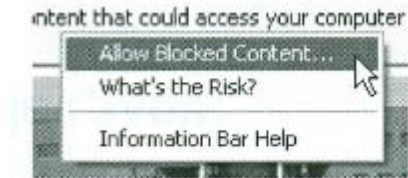

You have a list of various links on the main page. Now, you want to replace the images of these links and link each image to its corresponding details on a separate web page. While you want the work involved to be simple, you also need to ensure that it makes your pages interactive.

What you do	How you do it
1. Display the Insert Rollover Image dialog box.	<ol style="list-style-type: none">In the FILES panel, double-click index.html to open it.Select the Home image.Delete the image.Choose Insert > Image Object > Rollover Image to display the Insert Rollover Image dialog box.
2. Create a rollover effect with images for the Home link.	<ol style="list-style-type: none">In the Image name text box, type HomeNext to the Original image text box, click Browse to display the Original Image dialog box.Navigate to the My Documents\Your Folder\Dreamweaver Files\Working with Links\Our Global Company\images folder.Select home_up.gif and then click OK.Next to the Rollover image text box, click Browse to display the Rollover Image dialog box.Scroll down, select home_down.gif and then click OK.
3. Set the Home image as a link.	<ol style="list-style-type: none">In the Insert Rollover Image dialog box, verify that the Preload rollover image check box is checked.In the Alternate text text box, type HomeIn the When clicked, Go to URL text box, click and

	<p>type <i>index.html</i></p> <p>d. Click OK to close the Insert Rollover Image dialog box.</p> 
<p>4. Create rollover effects for the other images.</p>	<p>a. Delete the Our Company image.</p> <p>b. Use the images ourcompany_up.gif and ourcompany_down.gif to create a rollover effect for the Our Company image with the name Our Company and alternate text Our Company and link it to the ourcompany.html web page.</p> <p>c. Delete the News & Events image.</p> <p>d. Use the images news_up.gif and news_down.gif to create a rollover effect for the News & Events image with the name News & Events and alternate text News & Events and link it to the newsandevents.html web page.</p> <p>e. Delete the Clients & Partners image.</p> <p>f. Use the images clients_up.gif and clients_down.gif to create a rollover effect for the Clients & Partners image with the name Clients & Partners and alternate text Clients & Partners and link it to the clients.html web page.</p> <p>g. In the document window, scroll to the right and delete the Career image.</p> <p>h. Use the images career_up.gif and careecdown.gif to create a rollover effect for the Career image with the name Career and alternate text Career and link it to the career.html web page.</p> <p>i.
