

	<p>to define the width and the height of the <p> XHTML element.</p> <p><i>See Code Sample 2.</i></p> <p>(c) Save the file, switch to the Browser window, and refresh the page.</p> <p>(d) Observe that the width and height of the color strip are set according to your style declarations.</p>
--	---

Code Sample 2

```
p#colorstrip {
background-color: #CCCCCC;
width: 1000px;
height: 22px;
}
```

<p>3. Apply padding to the text inside the color strip</p>	<p>(a) Switch to the Notepad application.</p> <p>(b) Press Enter and type</p> <p>padding-top: 6px; padding-left: 15px;</p> <p>to set the top and the left padding between the element's content and its bounding box.</p> <p><i>See Code Sample 3.</i></p> <p>(c) Save the file, switch to the Browser window, and refresh the page.</p> <p>(d) Observe that the top and left padding has been applied to the text inside the color strip.</p>
--	--

Code Sample 3

```
p#colorstrip {
background-color: #CCCCCC;
width: 1000px;
height: 22px;
padding-top: 6px;
padding-left: 15px;
}
```

<p>4. Set the margins of the <p> element to zero.</p>	<p>(a) Switch to the Notepad application.</p> <p>(b) Press Enter and type</p> <p>margin: 0px;</p> <p>to set the margins on all four sides of the element to zero.</p> <p><i>See Code Sample 4.</i></p>
---	--

Code Sample 4

```
p#colorstrip {
background-color: #CCCCCC;
width: 1000px;
height: 22px;
padding-top: 6px;
padding-left: 15px;
margin: 0px;
}
```

5. Remove the space between the banner graphic and the color strip below it.

(a) In the <body> section, in the first <p> tag containing the banner image, click after <p>, press the **Spacebar** and type

style="margin: 0px"

to set the margins on all the four sides of the <p> element to zero.

See *Code Sample 5*.

(b) Save the file, switch to the **Browser** window, and refresh the page to verify that there is no space between the header graphic and the color strip.

(c) Close the browser window.

(d) In the **Notepad** window, close the index3-1.html file.

Code Sample 5

```
<p style="margin: 0px"></p>
```
