

Creating your Header

On the Calendar for today click on the link that reads [Web Headers](#)

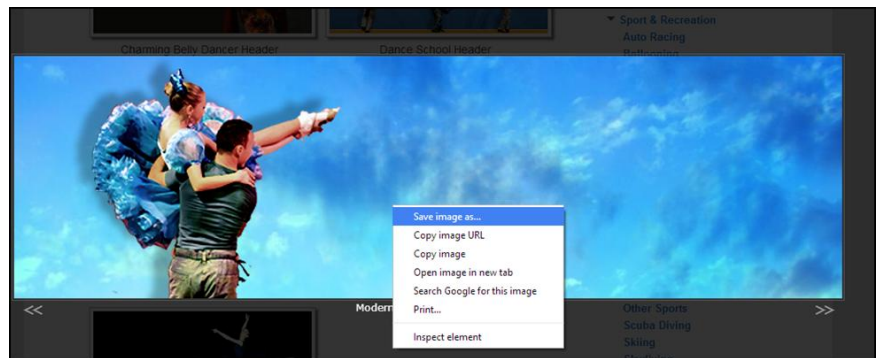

From the list of categories, select [Sports & Recreation](#)

From the list of Sports choose the one you are using for your site.

Go through the banners and find one you like and click on it.

To save it, right mouse click once it opens up and choose [save image as](#) and save it to the images folder in your Sports Site.

Open the image in Photoshop and add text to it. Add Styles to dress it up Be sure to Save for Web and Devices as a jpeg.

Now for the style

In the code window select the text *Content for id "header" Goes Here*

On the CSS panel double click **#header**

Select the **Background Category**

Click **Browse**

Go into your images folder and select your banner

Click OK

Save All, F12
