

Elements and Principles of Design - Color Poster

Color Emotions Poster

Instructions

- Begin with a plain white sheet of paper and a pencil or pen.
- In block letters, write 20 words describing emotion from any of these pages.

 - <http://www.incredibleart.org/lessons/middle/color2.htm>
- Turn the words all around. Make them fit together and fill up the page. If you can, make the letter shapes match the emotion.

- After you have the sheet filled with words, color in each word with the appropriate color, according to what you learned.
- You may outline words in a dark color like black or gray.
- You may leave the background white, or fill it with a single, very light color.
